88

WELCOME TO OUR WORLD

Staverton has a longstanding history in office furniture design. We are recognised for bringing form, function and flexibility together without compromise. By involving our clients at every stage of the work process, we find –together– the right solution for their specific needs.

British and proud, we have a manufacturing facility in South Yorkshire and a showroom in Clerkenwell, London. With the latest BAZ processing machinery recently installed, the factory has more than 38,000 sq ft of space for manufacture and assembly and ample room for our design team to turn client requirements into fully developed designs.

Staverton's skilled team of professionals is committed to delivering the highest quality requirements: our products are designed to achieve FIRA's gold standard, the world's leading independent furniture testing centre. Our bespoke approach, innovative design and collaborative method have earned us a name as a responsible and reliable award-winning British manufacturer.

We comply with all industry regulations, including the supply of responsibly sourced wood and other controlled sources, on-site personnel safety and conduct, quality control, and adherence to management standards such as ISO 9001, ISO 14001, BSI Membership, Safe Contractor Certificate, FIRA Gold Certificate, FISP Membership and FSC® Certificate.

POSITIVE CHANGE

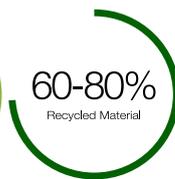

We need to be the change we want to see. Leading by example while learning from others is the best way to drive change.

Business as usual is no longer enough. Nor is merely complying with regulations. We must do more than is expected of us. We need to improve each day. We need to understand our whole impact on the world. And we need to work together to ensure that we learn from each other and drive change.

There is an onus on us not just as manufacturers and designers of products but as individuals. Sustainability can be designed into systems and products, but the real change we need to see is in our attitudes and behaviours. We are all in this together and we all have a role to play.

[Join Us](#)

Respect for the environment is in Staverton's DNA. We care for our setting by supporting sustainable forestry:

 	 	 	
<p>Frame, Legs and Brackets (Mild Steel)</p>	<p>FSC Certified Worksurfaces (MFC Wood)</p>	<p>Actuators and Control (Height Adjustable Actuators Column Motor Drive)</p>	<p>Edging (ABS)</p>
<p>Screen Upholstery Fabric (Polyester)</p>			<p>Screen Trim (Virgin PVC Anchor)</p>
<p>Packaging (Cardboard)</p>			<p>Electrics (Powerbar, Power Unit Interconnector Lead)</p>

Versatile Steel/Timber Hybrid Collection

ANNIVERSARY

The Staverton 88 collection, which includes attractive desk, bench and table solutions, was introduced as part of our 88th anniversary celebrations.

Staverton 88 combines great aesthetic detailing and exceptional craftsmanship to provide flexible and space-efficient solutions.

The hybrid steel/timber frame combines the flexibility and efficient use of space provided by a telescopic metal beam with natural solid timber legs – making it a great alternative to an 'all steel' framework solution.

The use of timber pays tribute to Staverton's woodworking history and heritage while simultaneously matching current trends in office furniture design.

This elegant and functional furniture system brings a welcoming touch of home to any office environment.

Mass Cable Riser Leg

In keeping with all Staverton ranges, 88 also includes discreet cable and power systems management as well as a wide variety of screen options.

Telescopic Metal Beam

The flexibility of a telescopic metal beam is used to create the substructure which fuses perfectly with solid timber legs to create the hybrid steel/timber frame.

Typical Desk Configuration

88 can be configured as a desk or a bench, and like all of our ranges, 88 provides effective and discreet cable management through the use of optional cable trays and risers.

Hygge Inspired Design

The concept of Hygge signifies cosiness and a sense of belonging. When applied to workplace design, it creates spaces that enhance our comfort and wellbeing.

Extended Collection Products

The Staverton 88 collection has a wide range of options including desks, benches, meeting tables and poseur height tables to encourage standing, together with a complementary range of high and low stools. If you're looking for something different, we can adapt the products to meet your requirements, too.

Typical Bench Configuration

Four-Person Back-To-Back Bench

Typical back-to-back bench configurations, two-person, six-person and eighth-person.

Typical Desk Configuration

Single-Person Desk
