

Quick Overview

BX Modular

WELCOME TO OUR WORLD

Staverton has a longstanding history in office furniture design. We are recognised for bringing form, function and flexibility together without compromise. By involving our clients at every stage of the work process, we find –together– the right solution for their specific needs.

British and proud, we have a manufacturing facility in South Yorkshire and a showroom in Clerkenwell, London. With the latest BAZ processing machinery recently installed, the factory has more than 38,000 sq ft of space for manufacture and assembly and ample room for our design team to turn client requirements into fully developed designs.

Staverton's skilled team of professionals is committed to delivering the highest quality requirements: our products are designed to achieve FIRA's gold standard, the world's leading independent furniture testing centre. Our bespoke approach, innovative design and collaborative method have earned us a name as a responsible and reliable award-winning British manufacturer.

We comply with all industry regulations, including the supply of responsibly sourced wood and other controlled sources, on-site personnel safety and conduct, quality control, and adherence to management standards such as ISO 9001, ISO 14001, BSI Membership, Safe Contractor Certificate, FIRA Gold Certificate, FISP Membership and FSC® Certificate.

POSITIVE CHANGE

We need to be the change we want to see. Leading by example while learning from others is the best way to drive change.

Business as usual is no longer enough. Nor is merely complying with regulations. We must do more than is expected of us. We need to improve each day. We need to understand our whole impact on the world. And we need to work together to ensure that we learn from each other and drive change.

There is an onus on us not just as manufacturers and designers of products but as individuals. Sustainability can be designed into systems and products, but the real change we need to see is in our attitudes and behaviours. We are all in this together and we all have a role to play.

[Join Us](#)

Respect for the environment is in Staverton's DNA. We care for our setting by supporting sustainable forestry:

Staverton BX offers flexible and customisable storage solutions to meet the requirements of your entire office.

BX

The BX Modular range is all about choice.

Staverton BX is one of the most comprehensive and expansive modular storage solutions on the market.

With options ranging from cupboards to wardrobes, bookcases, lockers, credenzas, top planters and more,

The range is available in four widths to maximise storage potential – single units are available in 400mm and 500mm widths, and double units in 800mm and 1000mm widths.

All units have a standard depth of 500mm – even the wardrobe units thanks to pull-out coat rails – so they can be placed side-by-side to create seamless runs of customised storage.

As BX Modular is available in four heights, it can also define zones and pathways within open-plan workspaces.

Media Integration

BX Modular range comprises a media unit with removable panels, cable management void, and TV/monitor integration.

Customisable Finishes

Available in a wide range of colours and wood-effect tones, with two handle styles in four finishes. It can fit any aesthetic or colour scheme.

Credenza Units

Credenza units are easy to move and come in different sizes. They offer plenty of space to store personal items and technology.

Future-Proofed

The BX solution has been designed with changing needs in mind. Easy to add to or reconfigure as required, the modular pieces are also simple to interchange and stack.

Planters

Add planters to BX Modular's storage for a touch of nature in the workplace.

Compatible With BX Lockers

BX Modular seamlessly enhances and extends current BX Lockers setups with minimal need for significant alterations.
