

TT

**Product
Brochure**

The world has changed a lot – including people’s expectations of how a workplace should look and feel. Employers and employees are emphasising creativity, collaboration, plus mental and physical well-being.

The desire for furniture solutions to offer contrasting work zones, breakout spaces, social areas, and natural environmental elements is at an all-time high.

TT offers an aesthetically bold, practical storage and partition system with unparalleled levels of flexibility and reconfigurability.

Decorative dividing unit incorporating bench sitting and free-standing dining tables.

Count on Us

Staverton Introduction

Staverton is an award-winning British manufacturer of office furniture. Thanks to our bespoke design approach and quality craftsmanship, we have been solving clients' furniture challenges for decades. It's how we've earned an enviable reputation as innovators – combining form, function and flexibility to meet clients' needs, without compromise.

Lead Time

Having our own production facility in South Yorkshire and the latest BAZ processing machinery installed in the factory allows Staverton to have a most competitive lead time. The benefits of our 38,000 sq ft of space for assembly and design become evident by the short time between the placement of an order and the delivery of the product.

Warranty

All Staverton systems have a lifetime warranty on framework and a 10-year warranty on top panels. Moving parts and electrical items have a five-year warranty. The warranty is valid for products supplied in mainland UK and used during normal office hours. It covers all defects in materials and workmanship, but does not apply to damage resulting from neglect, misuse or accidents.

Resources

At Staverton we understand the importance of supporting our clients, ensuring our designs work to meet their specific requirements. A comprehensive set of space planning tools and resources such as detailed product specifications, image library, render graphics, CAD and BIM files are all available.

Repair & Maintenance

Regular repair and maintenance is essential to keep screens and upholstered furniture looking at its best. We can provide extensive furniture cleaning care tips, conservation advice, repair instructions and recommendations to help keep all Staverton products looking their best.

Showroom

Conveniently located in London, our newly refurbished Clerkenwell showroom exhibits Staverton's wide range of products. Clients are welcome to visit and see our complete product range.

Quality Policy

Our commercial and management objectives are to provide products and services that consistently meet the needs and expectations of our clients, whilst operating in compliance with all regulatory requirements. To ensure this, we hold the British Standard BS EN ISO 9001:2015 Quality System Model accreditation.

Environmental

Our commitment to sustainability and environmental best practice is continual. As part of this we are working with clients to manage the disposal of their end-of-life office furniture in a responsible manner.

Staverton was one of the first UK office furniture companies to achieve the ISO 14001 certification. We are proud to hold the BM TRADA's registration number –001 as well as the current ISO 14001:2015 certificate.
