

Product Overview Drum

WELCOME TO OUR WORLD

Staverton has a longstanding history in office furniture design. We are recognised for bringing form, function and flexibility together without compromise. By involving our clients at every stage of the work process, we find –together– the right solution for their specific needs.

British and proud, we have a manufacturing facility in South Yorkshire and a showroom in Clerkenwell, London. With the latest BAZ processing machinery recently installed, the factory has more than 38,000 sq ft of space for manufacture and assembly and ample room for our design team to turn client requirements into fully developed designs.

Staverton's skilled team of professionals is committed to delivering the highest quality requirements: our products are designed to achieve FIRA's gold standard, the world's leading independent furniture testing centre. Our bespoke approach, innovative design and collaborative method have earned us a name as a responsible and reliable award-winning British manufacturer.

We comply with all industry regulations, including the supply of responsibly sourced wood and other controlled sources, on-site personnel safety and conduct, quality control, and adherence to management standards such as ISO 9001, ISO 14001, BSI Membership, Safe Contractor Certificate, FIRA Gold Certificate, FISP Membership and FSC® Certificate.

POSITIVE CHANGE

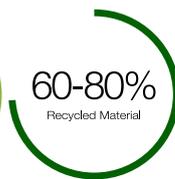

We need to be the change we want to see. Leading by example while learning from others is the best way to drive change.

Business as usual is no longer enough. Nor is merely complying with regulations. We must do more than is expected of us. We need to improve each day. We need to understand our whole impact on the world. And we need to work together to ensure that we learn from each other and drive change.

There is an onus on us not just as manufacturers and designers of products but as individuals. Sustainability can be designed into systems and products, but the real change we need to see is in our attitudes and behaviours. We are all in this together and we all have a role to play.

[Join Us](#)

Respect for the environment is in Staverton's DNA. We care for our setting by supporting sustainable forestry:

 	 	 	
<p>Frame, Legs and Brackets (Mild Steel)</p>	<p>FSC Certified Worksurfaces (MFC Wood)</p>	<p>Actuators and Control (Height Adjustable Actuators Column Motor Drive)</p>	<p>Edging (ABS)</p>
<p>Screen Upholstery Fabric (Polyester)</p>			<p>Screen Trim (Virgin PVC Anchor)</p>
<p>Packaging (Cardboard)</p>			<p>Electrics (Powerbar, Power Unit Interconnector Lead)</p>

Drum

Product Features

Form with function built in.

Drum brings together clean form, balanced proportions and intelligent detailing to create a table that feels as good as it looks. Designed to blend aesthetic clarity with practical performance, Drum delivers presence without excess and function without compromise.

The tapered steel drum base.

At the heart of the collection is a precision-fabricated steel pedestal with a subtle taper, creating visual lightness while maintaining strength and stability.

Available in two configurations:

Drum 360

A full drum base suited to circular tables and equally capable of supporting larger oval and shaped tops.

Drum 180

A half-drum configuration developed for longer and wider tables, offering generous leg clearance while maintaining the same cohesive aesthetic.

Seamless cable management.

Power modules are integrated within the tabletop surface. The Drum base is designed to discreetly conceal and guide cables to floor level, maintaining clean lines and eliminating visual clutter. The result is a workspace that feels considered, organised and uninterrupted.

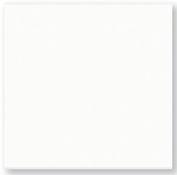

Staverton is committed to a range of socially aware goals, from addressing individual well-being to ensuring minimal environmental impact. [Discover more about our efforts.](#)
