It is the policy of Staverton UK Limited to provide its customers with quality products, manufactured to the specified standards of quality and performance, as laid down in our quality management system accredited to BS EN ISO 9001:2014. The Company is a manufacturer of a range of office furniture, located in Rotherham, South Yorkshire.

We are committed to the principle of sustainable development and will work to preserve the quality of life in the communities which we operate, working with our supply chain and customer base to promote awareness of sustainable procurement to reduce the environmental impact of products and services offered.

Staverton UK Limited holds FSC® (Forest Stewardship Council®) certification and aims to continue to promote the use of materials that are certified with this mark. The company is consistently assessing suppliers' ability to ensure their products are manufactured from timbers that are sourced from certified locations.

We have recognised that through our operations, and activities of our suppliers, that we inevitably impact on the environment. Through environmental reviews and audits, we have highlighted the use of raw materials, including the procurement of timber products, energy use, and the production and disposal of waste, as the main aspects of our activities. We will routinely assess these significant aspects and set objectives targets, to ensure continual improvement of our environmental performance using ISO 14001:2014 Environmental Management Systems as a framework. We will review our performance in meeting these targets on a regular basis.

The Company will ensure that proper managerial, technical and administrative controls will operate in order to enable this policy to be maintained. We will seek to incorporate the use of processes, practices, materials or products that are compatible with our commitment to the prevention of pollution.

Staverton UK Limited will comply with all relevant current environmental legislation, regulations and any other requirements of industry best practice. Through the environmental management system, we will assess new requirements and where appropriate achieve compliance.

It is the policy of the Company to ensure that all personnel involved in the company's operations have appropriate training, and that each individual concerned understands the environmental aspects, impacts and pollution controls of their job function.

It is the responsibility of all employees to support and apply those sections of the Company environmental management system, which relate to their activities within the organisation.

The policy, which will be reviewed on a regular basis, embraces the relationships with our suppliers with whom we will promote improved environmental performance through communication of our policy and objectives. The policy will also be communicated to our customers, and is available to the public when requested.

Jamie Wilson
Managing Director
Staverton (UK) Ltd.
