

Unlock Legacy Systems with **Lumea**

Modernize faster, onboard smarter

How it works →

Lumea is Exadel's GenAI-powered assistant designed to rapidly decode legacy codebases, eliminate reliance on tribal knowledge, and help your analysts, QAs, and product owners get up to speed, without chasing down SMEs.

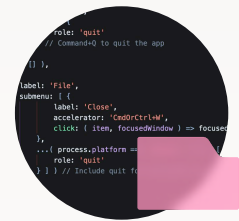

Lumea uses Retrieval-Augmented Generation (RAG) to turn fragmented code, tickets, and documentation into a conversational expert that's always available.
