

1. Applications

EUROFLEX® Modular Sandbox Edging elements are the perfect edging to border around sandboxes, playgrounds and playing surfaces of all types – with excellent dimensional stability due to integrated reinforcing bars.

Modular Sandbox Edging elements are also ideally suited for use in schoolyards, daycare centers and as planter walls.

EUROFLEX® Modular Sandbox Edgings are manufactured by an environment-friendly process and can be recycled as process raw material at the end of their service life. They can be played on under almost any weather conditions.

2. Material

Rubber granulate: granulated recycled rubber (approx. 90 %)
Binding agent: MDI polyurethane (approx. 10 %)

3. Characteristics

Colour: red, green, grey or black
Minor colour variations and/or fading are possible.
Surface: Structured visible surface on one side with open pores

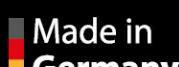

A double steel reinforcement guarantees excellent material stability of the pivot joints.

**4. Dimensions / Tolerances**

L x W x T: 1150 x 150 x 300 mm
Centre-to-center separation 1000 mm
Area weight: approx. 26,0 kg/m²
Dimensional tolerances: +/- 0,8 %

5. Test Data

Conformity acc. to Regulation (EC) 1907/2006 SVHC list and appendix XVII

Production facility inspection

6. Installation

Modular Sandbox Edging elements can be combined to form enclosures of desired shape and size by easy-to-use connector pins (smallest possible enclosures is a 4-element square).

Install over frost-stable, level substructure of stone chippings or lean concrete.

Note the complete installation instruction.
