

# EUROFLEX® FOR LEISURE PARKS & ZOOS

Impact protection slabs and accessories

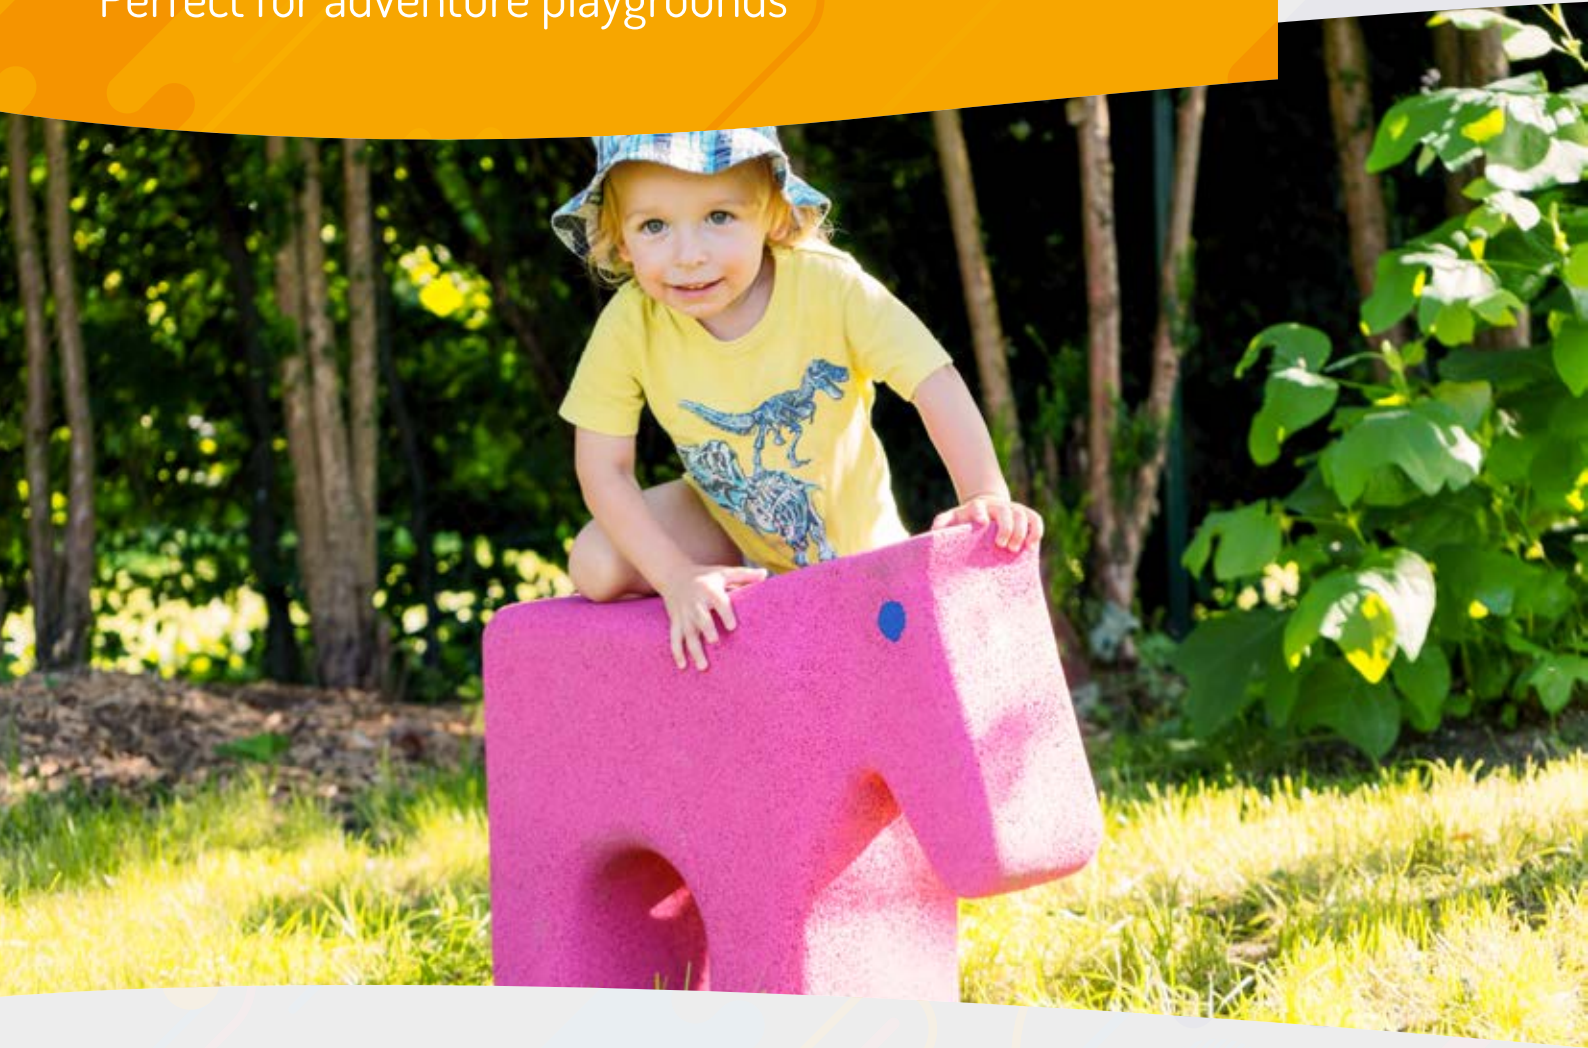

**EUROFLEX®**

**EUROFLEX®**

**ELEPHANT, RHINO, DROMEDARY, PONY**

Perfect for adventure playgrounds

Whether it's imaginative play equipment or exciting seating - our EUROFLEX® animals offer every opportunity for children to pursue their natural urge to move and their communicative needs. They can be used flexibly to design playgrounds in zoos or as sitting/climbing facilities at animal enclosures. Our animals made of rubber granulate also cut a good figure on adventure playgrounds in zoos!

### **Advantages and properties**

- many friendly and strong colours
- different variants with glitter, mulch structure or multicoloured rubber granulates
- Installation optionally with floor anchor in fresh concrete bed or on floor slab
- weather-resistant

## CUBES AND BALLS

Balancing and seating elements for leisure parks

Due to their harmonious form, these design elements adapt to any environment and round off the overall composition of an area. They can be fastened with steel anchors or base plates. Why are these elements so popular? They are beautiful, colourful and versatile. They can also be used as borders, seating elements, climbing elements and decorations.

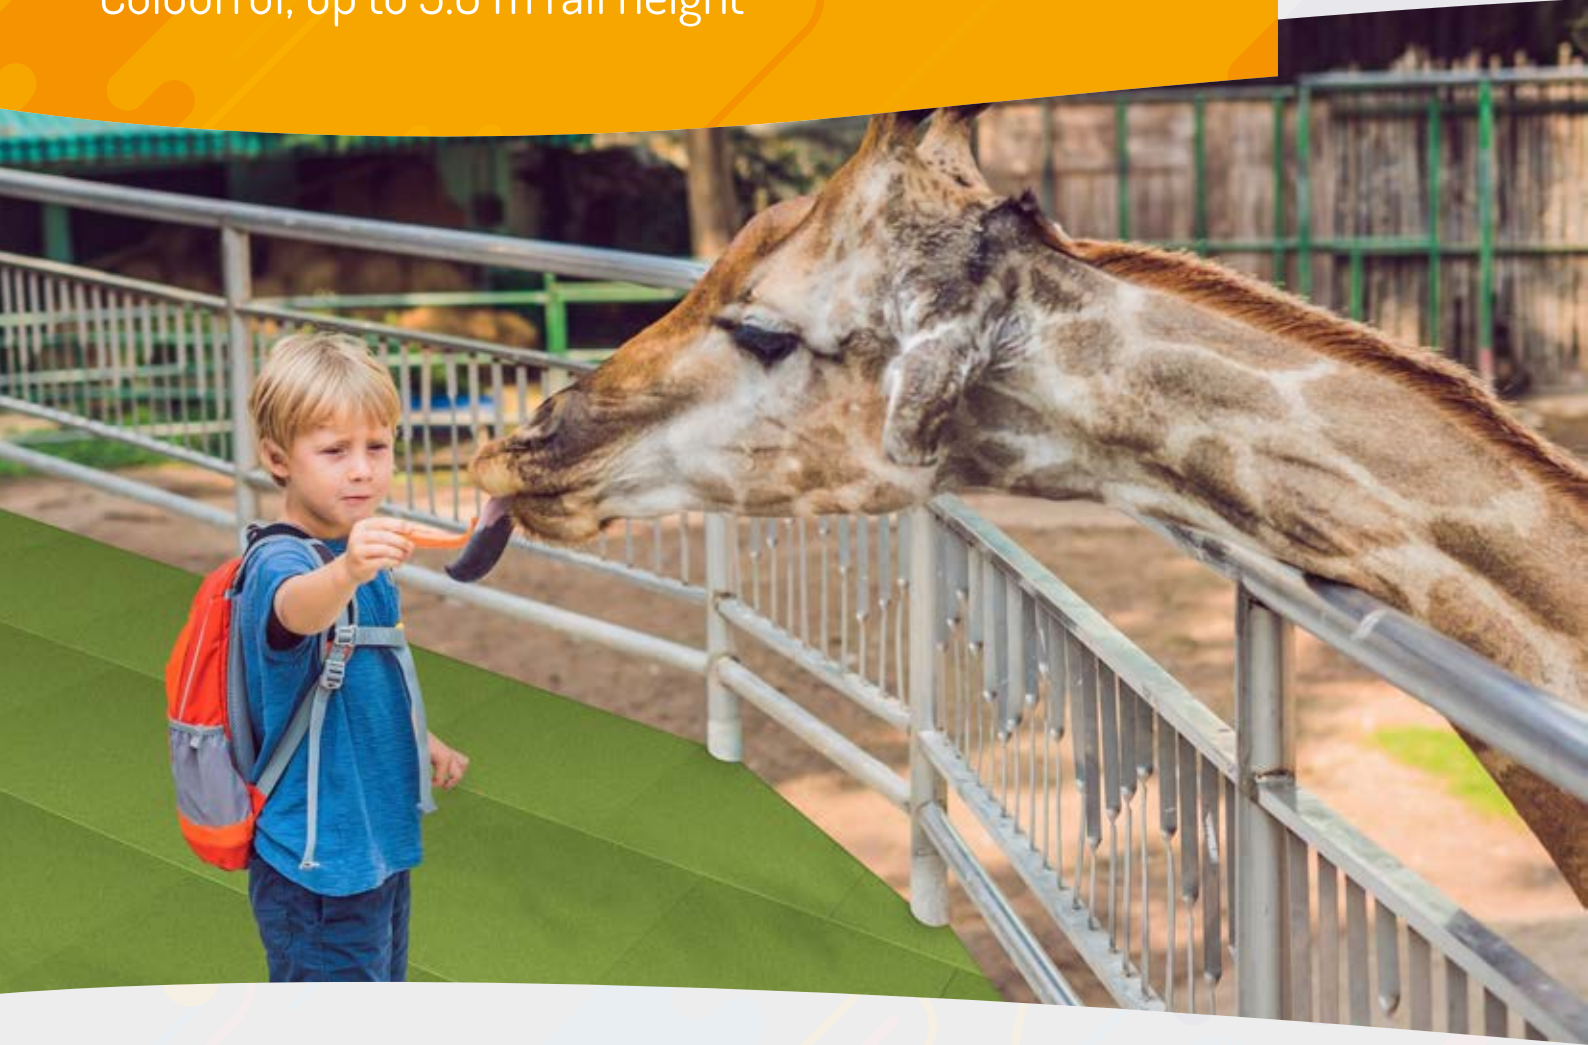

## Advantages and properties

- ideal for climbing and as a design or seating element
- high colour diversity (SBR, EPDM or EPDM multicolour rubber granulate)
- different sizes (345, 500, 695 mm)
- Balls & hemispheres also available with numbers

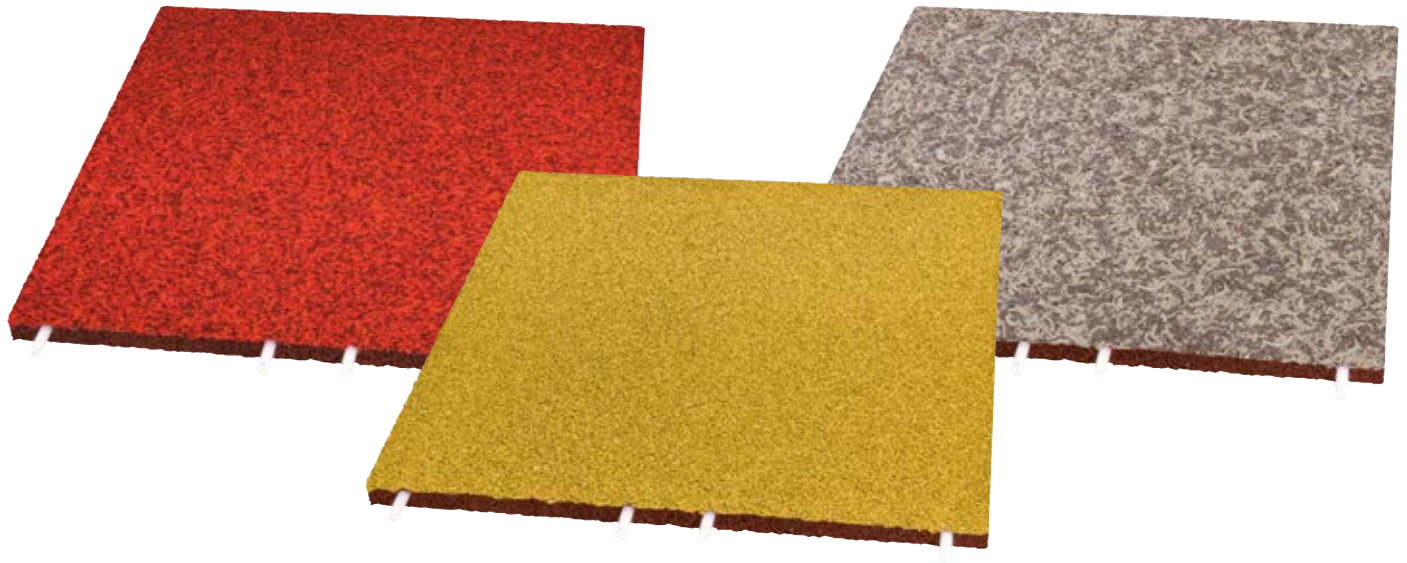

**EUROFLEX®**

## EPDM IMPACT PROTECTION SLABS

Colourful, up to 3.0 m fall height

EUROFLEX® impact protection slabs are the ideal floor covering for adventure playgrounds in zoos and amusement parks. With a maximum fall height of 3.0 metres, they are suitable for numerous playground equipment and protect children from serious injuries. Many different colours can be used to create your own theme worlds that encourage children to play.

## Advantages and properties

- many friendly and strong colours
- various thicknesses for fall heights up to 3.0 m
- different variants with mulch structure or multicoloured rubber granulates
- water-permeable, quick drying
- factory pre-installed connector pins for easy installation
- tested quality Made in Germany

**IMPACT PROTECTION & PLAYGROUND ACCESSORIES  
FOR PLAYGROUNDS AND MULTIPURPOSE SPORTS FACILITIES**

made from rubber granules
