

# GreenLight Biosciences™

## PRINCIPAL FUNCTIONING AGENTS:

Methyl soyate, beta-(1,3/1,6)-glucan .....	17 %
Constituents Ineffective as Spray Adjuvants .....	83 %
<b>Total.....</b>	<b>100%</b>
WA Reg. No. 94614-24001	

## Keep Out of Reach of Children

### PRODUCT INFORMATION:

Benchpress™ is a high-performance biological adjuvant, formulated to improve foliar application mixtures, and engineered to optimize insecticide potential.

**Precautionary Statement:** Avoid breathing vapors or mists. Avoid contact with eyes, skin or clothing. Use with adequate ventilation. Keep container closed when not in use. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Do not permit the accumulation of dust from dried product to collect in the work area.

**Personal Protective Equipment (PPE):** Long-sleeved shirt and long pants; shoes plus socks; protective eyewear; gloves.

Refer to tank mix partner product label for additional PPE.

Follow manufacturer's instructions for cleaning/maintaining PPE. Use detergent and hot water for washables. Keep and wash PPE separately from other laundry.

### FIRST AID:

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For medical emergencies involving this product, call the poison control center at 1-800-222-1222.

If inhaled: Move person into fresh air. If not breathing, give artificial respiration.

In case of skin contact: Remove contaminated clothing and wash the affected areas with soap and water. Seek medical attention if symptoms develop or persist. Launder contaminated clothing before reuse.

In case of eye contact: Rinse thoroughly with plenty of water for several minutes. Seek medical attention if irritation occurs and persists.

If swallowed: Seek medical attention. Do not induce vomiting unless directed to do so by medical personnel.

### DIRECTIONS FOR USE:

Benchpress™ is an adjuvant used to increase the efficiency of insecticides on and within the plant. Always follow the use limitations of the insecticide to which Benchpress™ will be added.

The suggested use rate is 2 pints per acre (32 fluid ounces per acre), via ground and aerial application in orchards, fields and row crops.

Shake before use.

# Benchpress™

Penetrant, Extender, and Deposition Aid

Limitations of use: The addition of adjuvants to certain pesticides or combinations of mixtures in pesticide tanks can cause phytotoxicity. It is recommended to carry out compatibility and phytotoxicity tests before spraying mixtures or combinations in tanks. Before use, read and carefully follow the instructions for use of the products to be tank mixed.

### NOT FOR AQUATIC USE.

## STORAGE AND DISPOSAL

Store in closed container in a cool, dry place. Storage at average temperatures between 35°F-90°F is recommended for maximum product stability/potency. Do not store near food, foodstuffs, drugs or potable water supplies. Do not contaminate water, food, or feed by storage or disposal.

Dispose of contents/container on-site or at an approved waste disposal facility. Do not reuse empty container. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. The Ag Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at [agrecycling.org](http://agrecycling.org).
