*Smart*Adjust

_Smart_Adjust companion app allows easy and intuitive configuration of all the sensors in the iDOL series.

*Smart*Adjust is available in the following sensors from dol-sensors a/s:

- iDOL 20
- iDOL 26
- iDOL 27
- iDOL 28
- iDOL 44
- iDOL 46 ATEX

Configurations have been tailored to perfection in your application can be saved and shared amongst your staff to be used in other livestock houses. Due to the versatility of *Smart*Adjust and iDOL sensors, the only thing you really have to worry about is choosing the right housing for your sensors.
- Sensors can be configured with no power applied
- Sensor configurations can be saved for later use and shared with others
- In-reach configuration ensures excellent security and eliminates the risk of configuring other sensors than the one intended

*Smart*Adjust

The benefits of *Smart*Adjust

Configuration:
Avoid guessing and get more accurate readings as *Smart*Adjust makes it configure sensor settings exactly the way you want them to be.

Time saver:
Settings from one iDOL sensor can be copied to as many others as you like, simply by tapping them.

Simplicity:
Never miss an order again. What used to be hardware variants is now handled in the shop with *Smart*Adjust.

Unpowered:
Not exactly, but with *Smart*Adjust, iDOL sensors can be adjusted without being powered. Stay in the comfort of the office or van and prepare all the sensors before installing them.
