

Non-UCITS Retail Scheme Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

MGTS Town Close Defensive Fund Inc (GB00BRC1R978)

The Sub-fund is managed by Margetts Fund Management Limited.

Objective and Investment Policy

Investment Objective

The objective is to provide income with the potential for capital growth over any 5-year period.

How will the objective be achieved?

The Sub-fund will provide exposure to a range of asset classes and investment strategies across any economic sector and geographic area to provide a defensive investment strategy.

The Sub-fund’s primary exposure is expected to be to bonds (which may include government, corporate, sub-investment grade and inflation linked). Exposure will be at least 60% and could be up to 100%.

Exposure to shares will be limited to 30%.

The Sub-fund may also provide some exposure to alternative investments, such as property and/or commodities. The total exposure to alternative investments is limited to 10%.

The Sub-fund will be fully invested, which means that although exposure to cash will vary depending upon prevailing circumstances it would not normally exceed 10% of the total value of the Sub-fund. There may be times when the Investment Manager considers assets to be overpriced or that a period of instability exists which presents unusual risks. In such cases or during such periods, a higher level of liquidity may be maintained and, if considered prudent, the exposure to cash or near cash instruments held would be increased. Unless market conditions were deemed unusually risky, the increased exposure and period would not be expected to exceed 30% and six months respectively.

To provide the above exposure, a minimum of 70% of the Sub-fund will be invested in passive and/or actively managed collective investment schemes (which may include schemes operated by the ACD, associates or controllers of the ACD). The Sub-fund may also invest directly (maximum of 30%) in transferable securities, such as shares and investment trusts.

Management Style

The Sub-fund will be actively managed. This means that the Investment Manager will use their expertise to select investments, rather than tracking a stock exchange or index.

Derivative Use

The use of derivatives and/or hedging transactions are permitted in connection with efficient portfolio management (managing the Sub-fund in a way that is designed to reduce risk or cost and/or generate extra income or growth or both). The Sub-fund may hold assets which embed derivatives that are used for investment purposes and efficient portfolio management.

General

Shares in the Sub-fund can be bought and sold daily (every Business Day of the Sub-fund). If you invest in income shares, income from investments in the Sub-fund will be paid out to you. If you invest in accumulation shares, income will be retained in the value of your shares.

Recommendation: this Sub-fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The risk and reward score is not guaranteed and may change over time. The lowest category does not mean risk free.

The Sub-fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Sub-fund rises and falls). The risk and reward score is based on past performance and calculated in accordance with European legislation. It may not be a reliable indication of the future risk profile.

The following risk factors are relevant to the overall risk profile of the Sub-fund. A full description of risk warnings is provided in the prospectus, which is available on our website, or by requesting a copy.

Investments in collective investment schemes may provide a higher level of diversification but may also increase costs. The underlying collective investment schemes may also experience operational or credit issues which could impact liquidity (the ability to sell) or capital value.

Exposure to various asset classes may include some assets that are considered to carry more risk. This means that the rise and fall in value could be greater than for lower risk investments, or that they may take longer to sell. In addition, the way in which these assets interact with each other may change through time causing higher or lower fluctuations of value.

Fixed interest securities can be affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. The value may also be affected by the issuer's credit rating and may be less liquid than other investments, which means that they could be harder to sell at the expected price.

The objective, policy and strategy set out above should align with the objectives of the investors and their minimum timeframe for investment.

Charges

The charges you pay are used to pay the costs of running the Sub-fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	0.00%
Exit Charge	0.00%

Charges taken from the Sub-fund over a year	
Ongoing Charges	0.54%
Performance Fee	0.00%

The entry and exit charges shown are the maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The ongoing charges figure is based on the last year's expenses (or reasonable estimate where Sub-fund has not been operating for a full calendar year), for the year to 20 Oct 2025 and this figure may vary, year to year. It excludes portfolio transaction costs.

For further details on the calculation of the charges please refer to the Sub-fund’s prospectus.

Past Performance

This Sub-fund launched after the start of the previous year and therefore there is insufficient data to provide a useful indication of past performance. The Sub-fund was launched on 20 Oct 2025. The share class was launched on 20 Oct 2025.
