

FUTURE >>>
READY NYC

The Mission

FutureReady NYC has the power to uplift our kids and our city—to erase gaps... and then soar beyond. We are committed to ensuring that Legacy Leadership HS scholars are ready for a Bold Future, and all of our work is built upon five key pillars: career-connected instruction, dedicated advising, work-based learning, financial literacy education, and early college credits.

FRNYC's vision is achieved through...

Career-connected instruction

Enabling students to build skills in and awareness of high-wage, high-growth occupations, as well as digital literacy and academic readiness

Early credits and credentials

Providing pathway-aligned credits and industry-recognized credentials to accelerate student progress and attainment

Work-based learning

Culminating in a pathway-connected internship to ensure students gain authentic, relevant work experience

Individualized advising

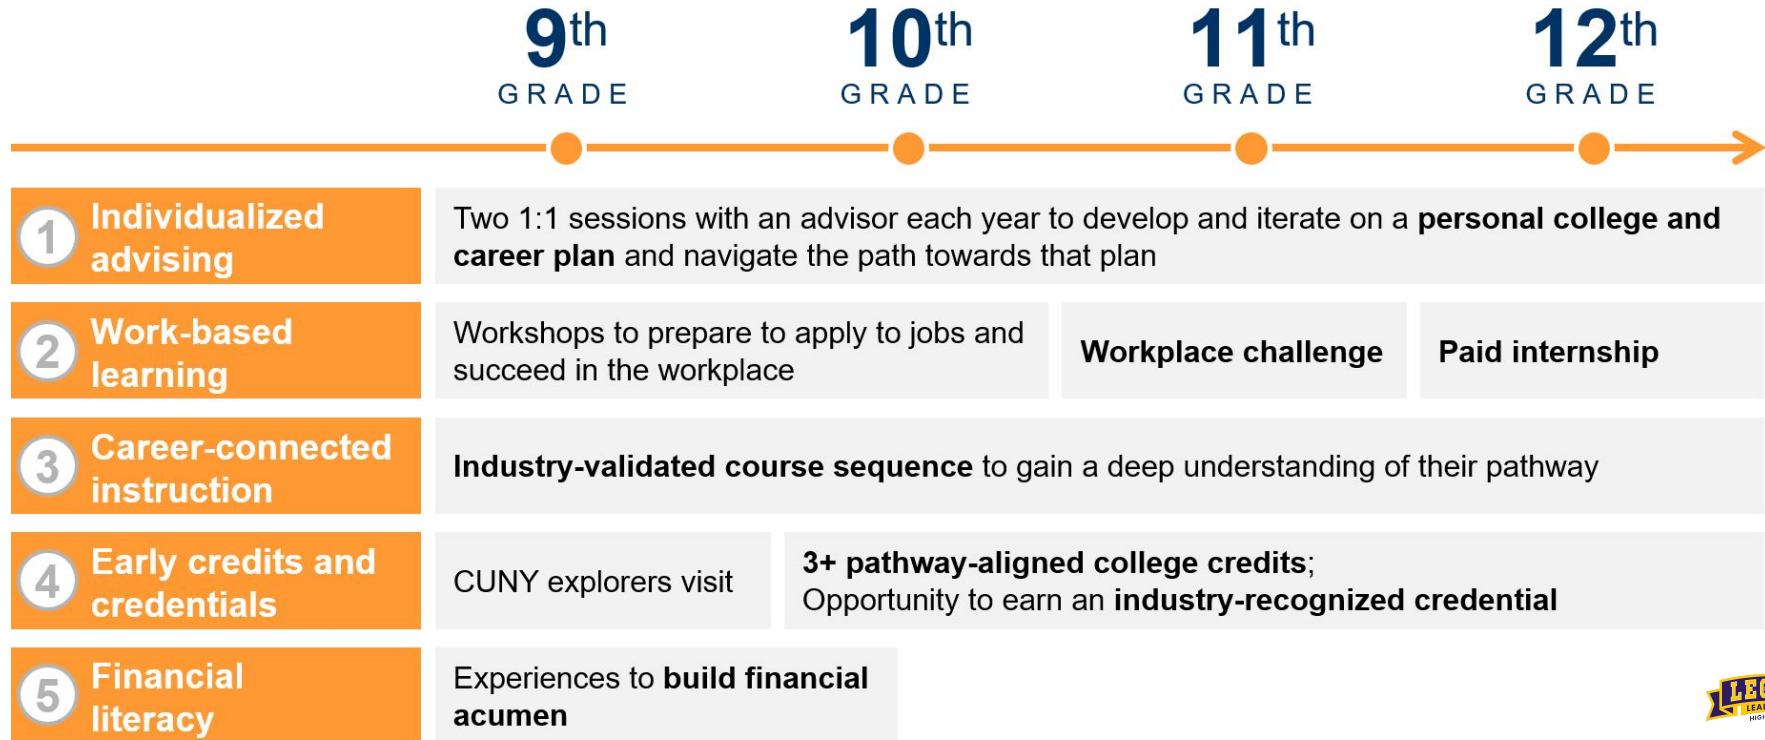

Working closely with a trained advisor to develop and iterate on a personal career plan and to navigate the path towards that plan

Financial literacy

Attaining the skills necessary to have economic awareness, acumen, and stability over their lifetime through high-quality coursework

Each FRNYC student will experience the following five transformational programming components
