# HOME MAINTENANCE CHECKLIST

PROTECT YOUR HOME | SAVE ENERGY | STAY SAFE

## FURNACE

- ✓ Sweep chimney once a month
- ✓ Change air filter once a year
- ✓ Change oil line filter every 6 months
- ✓ If power goes out, reset the safety switch on the black smoke pipe next to the furnace

## AIR EXCHANGER

- ✓ If power goes out, reset airflow settings to match the airflow entering the home
- ✓ Clean the air exchanger at least once a year using a vacuum cleaner

## CARBON MONOXIDE MONITOR

- ✓ If the alarm sounds, open a window or door immediately to allow fresh air inside
- ✓ Check for contaminants such as:
  - Smoke
  - Gas fumes
  - Oil fumes

## WOOD STOVE

- ✓ Replace roofing cement around the chimney at least once a year, or when leaks appear
- ✓ Clean the chimney every two weeks during regular stove use

## RANGE HOOD VENT FILTERS

- ✓ Clean at least once every week

## HOT WATER TANK

- ✓ Flush the tank once a year to remove sediment buildup
- ✓ Turn off power to the tank before cleaning.

## SMOKE DETECTORS

- ✓ Test smoke detectors at least once every week
- ✓ Replace batteries as needed

### REMEMBER

Extend the life of your home systems

Improve indoor air quality

Reduce repair costs

Keep your family safe

### Regular maintenance helps:
