

About Getnet

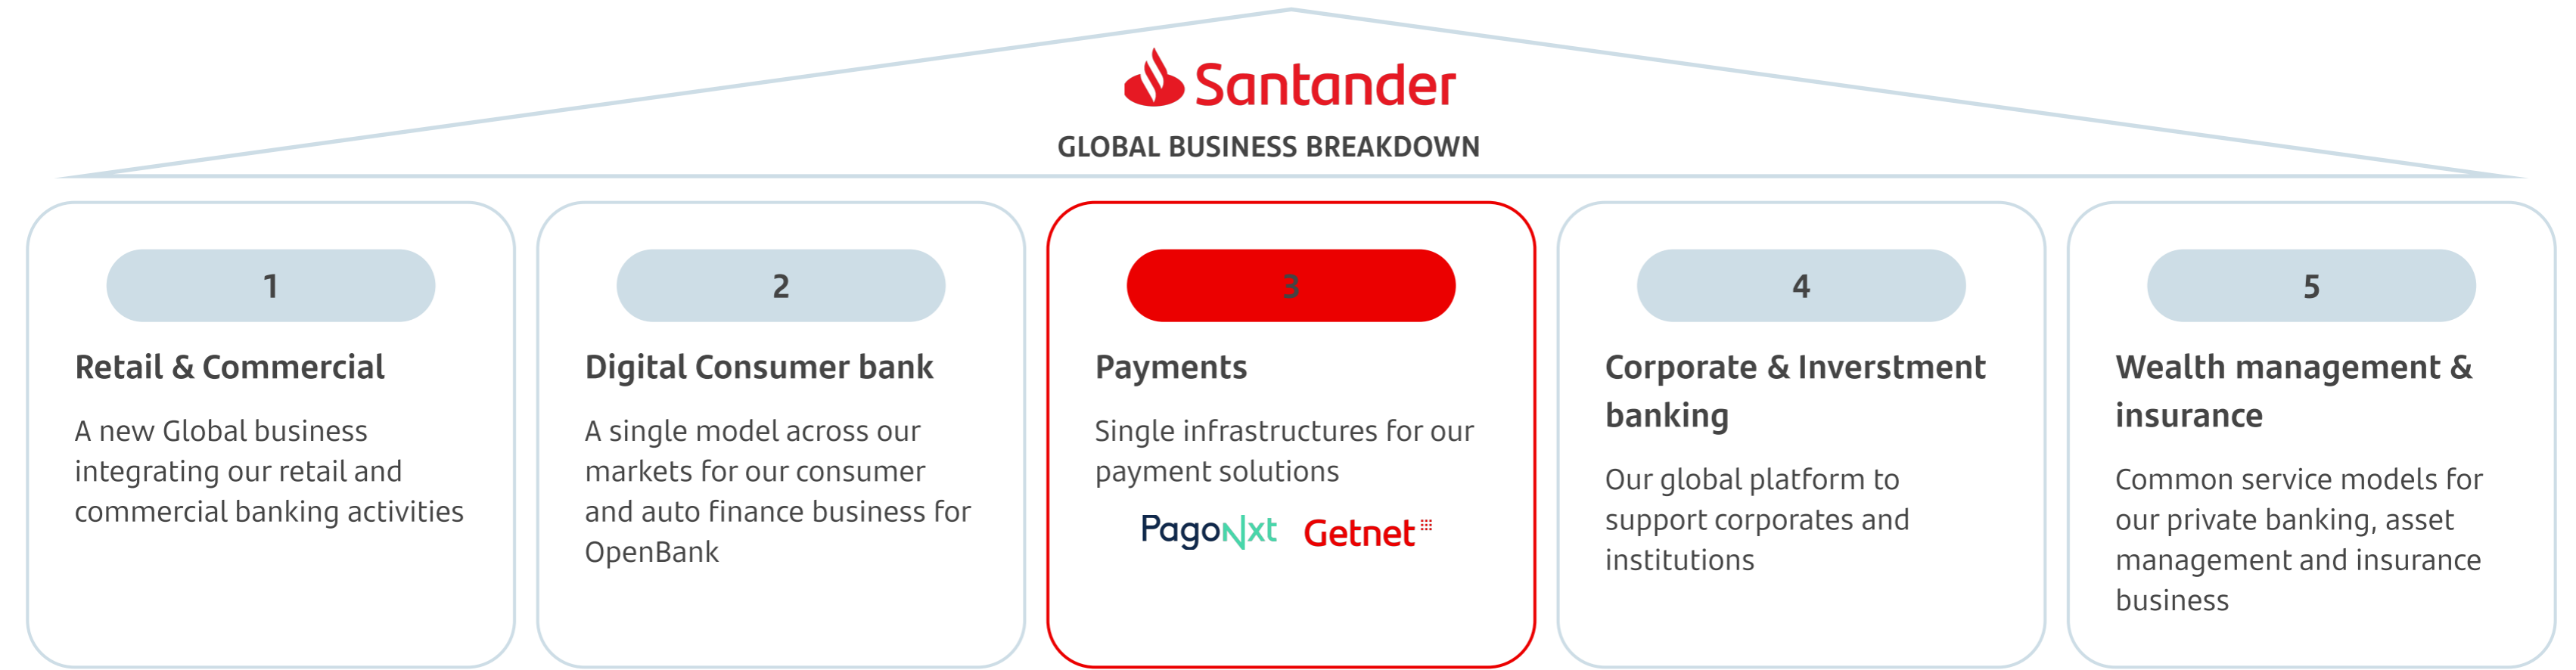

PagoNxt

A 100% santander owned paytech providing customers with a one-stop shop for innovative payments and integrated solutions.

Created in late 2020 as a global payments platform to innovatively bring together all of Santander Group's payment solutions under one umbrella, building over Getnet's, established franchise

PagoNxt
 Cloud-native platform that process x-border B2B Account to Account pay-outs and FX

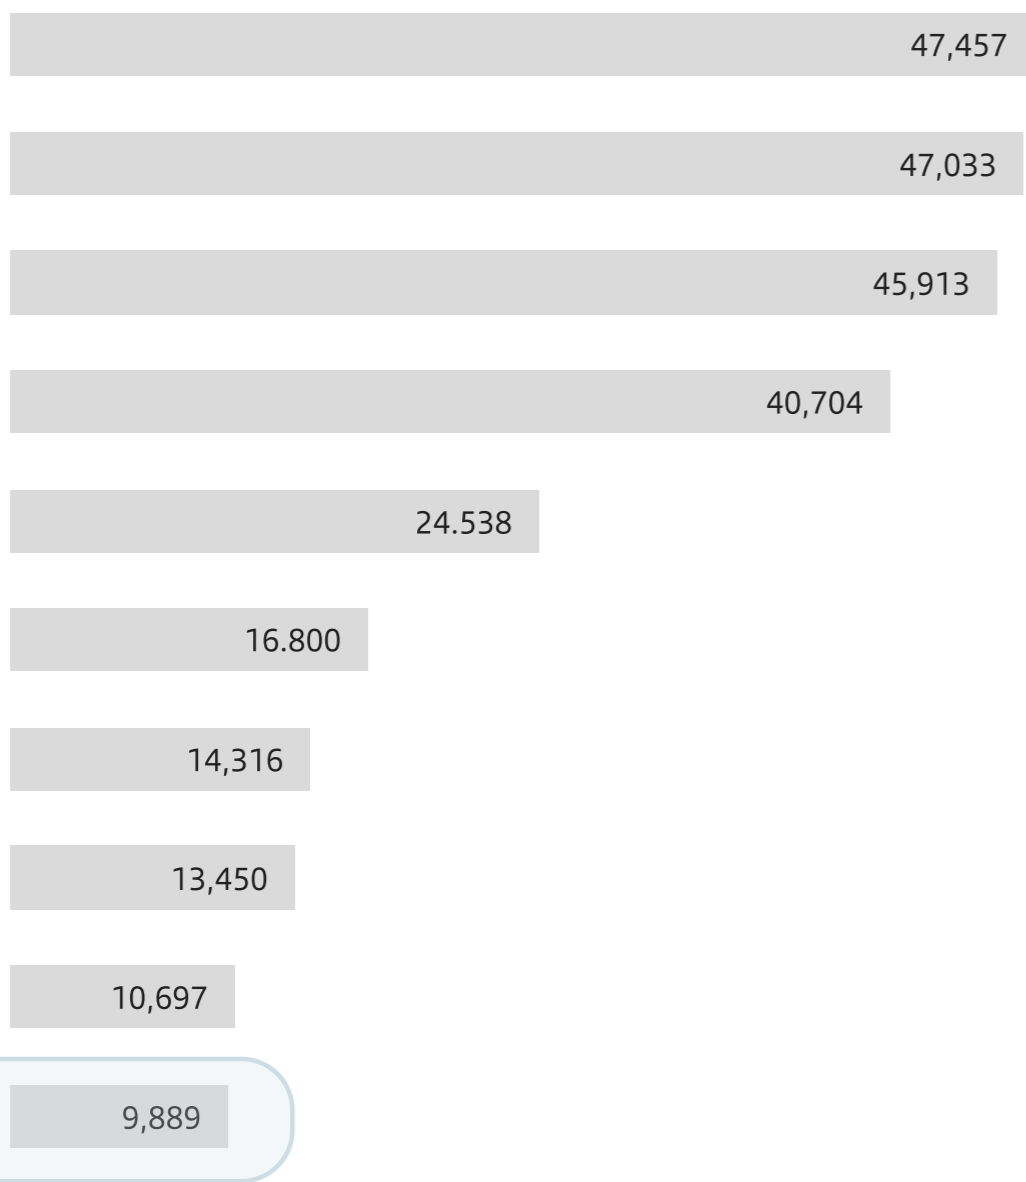

Getnet
 Merchant payments services including processing, acquiring and value-added solutions

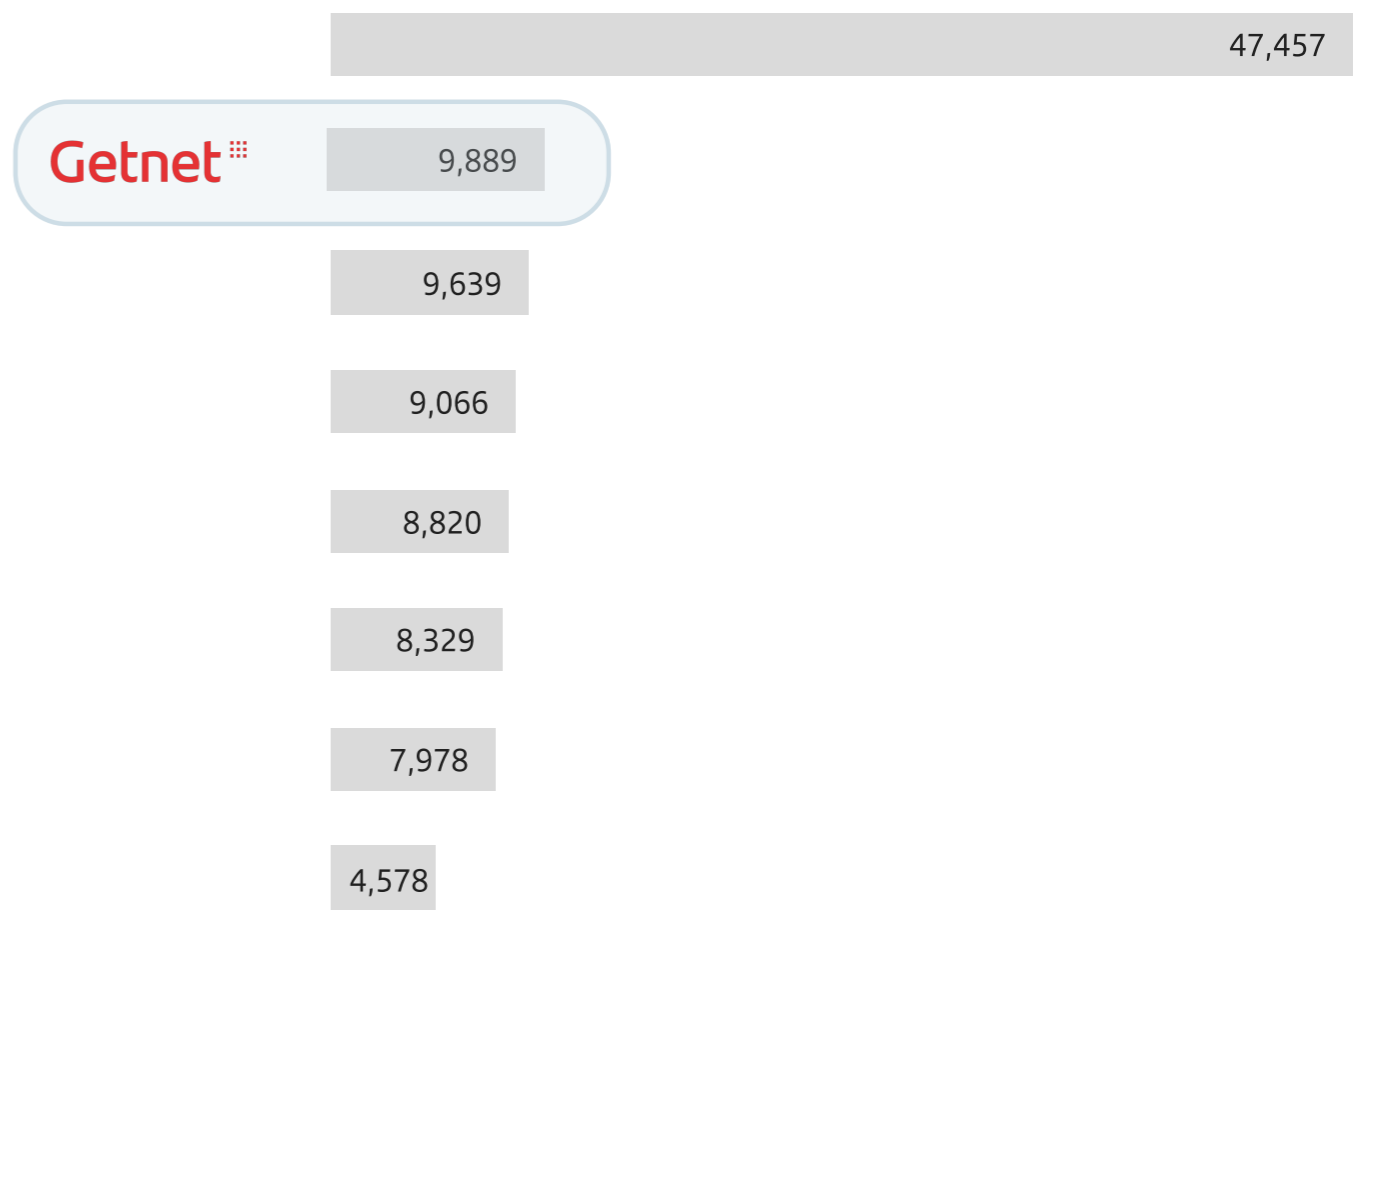

Five global business have become the new primary segments for the group, in this new model, global heads will define the common business and operating model, which will be based on global platforms.

We keep widening our presence in the payments industry

In diverse and abundant competition landscape Getnet stands 10th among merchant acquirers but...

... there aren't many players backed by a leading financial institution with a global reach like Santander's

1. Nilson Report Issue 1272, October 2024. Ranked by domestic purchase transactions (in Millions). Considering only publicity traded companies
 2. own source based on Nilson Report Issue 2023 only selecting Top 10 international players backed by global banks

Strong geographical footprint in Iberia and LatAm

Getnet has been providing merchant payment services for more than 10 years in Brazil, Mexico, Spain and Portugal and in the south cone Getnet's been present - 5 years but has scaled quickly achieving relevant market shares
