

## Value Added Services

Complementary services designed to extend the core acquiring and payments offering, allowing merchants and partners to extract additional value from payment flows, beyond basic transaction processing.

### Core Services

These services are delivered as modular capabilities, allowing for flexible adoption according to business needs, geography, and operational maturity.

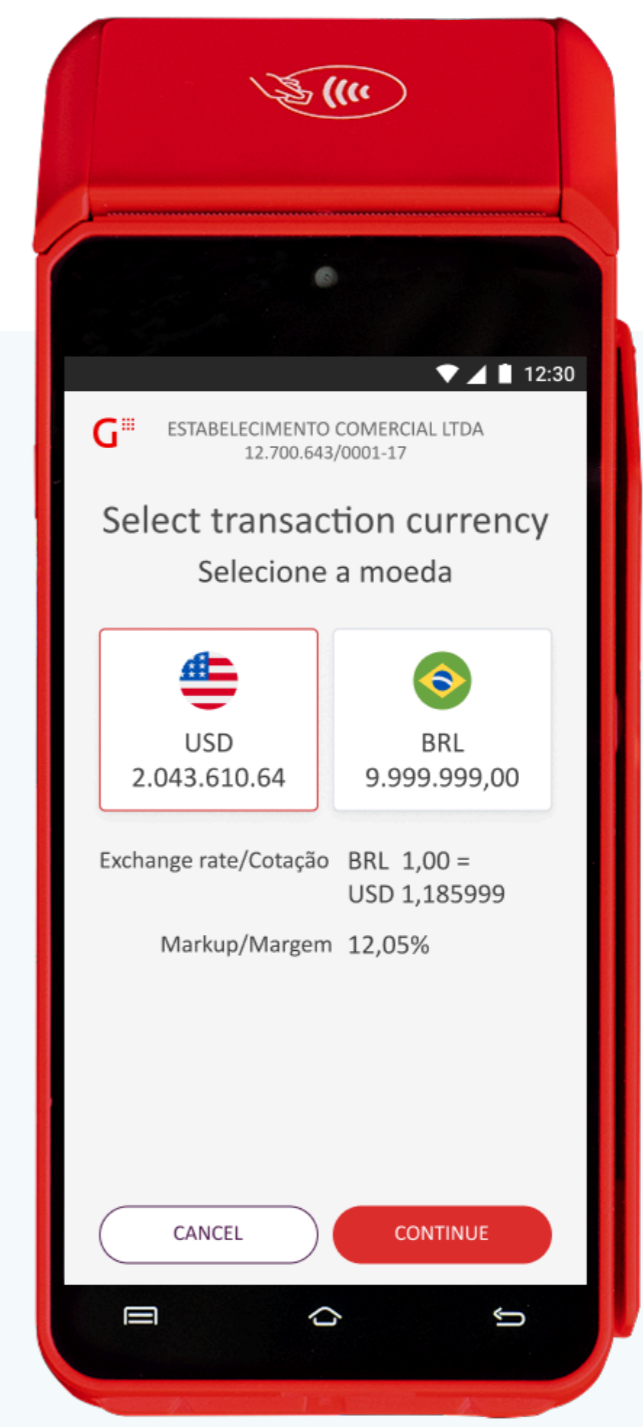

We combine our expertise and resources with specialized partners to enhance our value proposition.

**Dynamic Currency Conversion**  
Whether at a physical or virtual POS terminal, it allows foreign cardholders to pay in their local currency.

**Antifraud Tools**  
Fraud detection through a single API PCI certified platform with less friction for the customer.

**Financing Solutions**  
Financial management through our Prepayment and DWC (Dynamic Working Capital) solutions.

**Broad list of Specialized Partners**  
We combine our expertise and resources with specialized partners to enhance our value proposition.
