

Where Design Decisions Happen.

Built for manufacturers and distributors who want to reach engineers at the moment of decision — Datasheets.com integrates your product data, inventory, and advertising into the world's most active electronics design platform.

WHY DATASHEETS.COM

High-Intent Audience

Engineers actively searching for parts to source, spec, and procure — at the precise moment they need your product.

Real-Time Price & Inventory

Live inventory and pricing delivered directly to engineers comparing parts and making procurement decisions in real time.

Design-Stage Access

Reach buyers before the BOM is finalized. Be there when the engineer is in layout — not after the decision is made.

ADVERTISING PRODUCTS

Product Feed Listing

Integrate your product feed directly into the engineer's workflow.

- High-impact positioning
- Real-time price & inventory
- Conversion focused
- Monthly click reporting

Cross Reference Unit

Intercept engineers searching for competitive parts — direct MPN to MPN.

- User search triggered
- Unlimited impressions
- No per-click fees
- Monthly reporting
