

Product Details

Akarkara

It is a hardy, perennial herb native to North Africa and Mediterranean regions, and also cultivated in parts of India. It grows well in dry, rocky soils and features low-growing, spreading stems with finely divided, feathery leaves. The plant produces small, daisy-like flowers with yellow centers surrounded by white petals. The roots are thick, fibrous, and brownish in color, known for their pungent, tingling taste, these roots are traditionally used in formulations to stimulate the nervous system, enhance vitality, support oral health.

Anacyclus pyrethrum

Pellitory

Active Ingredients

-

Part Used: Rhizome

Ratio: 07:01 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

Akarkara (*Anacyclus pyrethrum*) is a potent herb traditionally used in Ayurveda and Unani medicine for its nerve-stimulating, rejuvenating, and aphrodisiac properties. It is primarily valued for enhancing vitality, improving sexual health, boosting immunity, and strengthening the nervous system. Medicinally, Akarkara is used to treat sexual disorders like infertility and premature ejaculation, as well as to relieve dental pain, facial palsy, and speech issues due to its powerful nervine action. Its therapeutic benefits include acting as a natural aphrodisiac, promoting better cognitive function, stimulating the immune system, reducing inflammation, and providing analgesic effects, making it a highly effective herb for overall vitality and wellness.
