

Product Details

Aritha

It is a deciduous tree native to the Indian subcontinent and Southeast Asia. The plant features trifoliate leaves, small yellow flowers, and fruits that contain saponins, which give them their natural soap-like properties. It is used for its purifying and detoxifying qualities. It is widely used in hair care, helping to promote healthy hair growth, reduce dandruff, and enhance scalp health. Additionally, Aritha has benefits for skin care, supporting the treatment of various skin ailments, and is known for its antimicrobial and anti-inflammatory properties.

Sapindus trifoliatus

South Indian Soapnut

Active Ingredients

-

Part Used: Seeds

Ratio: 5:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

Aritha (*Sapindus trifoliatus*), commonly known as Soapnut, is a traditional Ayurvedic herb prized for its natural cleansing and healing properties. Rich in saponins, it produces a natural lather and is widely used as a gentle cleanser for hair and skin. Medicinally, Aritha is used to treat dandruff, scalp infections, excessive oiliness, and various skin conditions like eczema and acne. Its therapeutic benefits include acting as a natural antimicrobial, anti-inflammatory, and antioxidant agent, promoting healthy, lustrous hair, soothing irritated skin, and offering a chemical-free alternative to synthetic cleansers for overall skin and scalp health.

Form: Powder*

* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
