

Product Details

Babool

Babool, *Acacia arabica*, is a deciduous tree native to the Indian subcontinent and parts of Africa. With thorny branches and small yellow flowers, its bark is prized in Ayurvedic medicine for its astringent, antimicrobial, and anti-inflammatory properties. It is used to support oral health, particularly for gum issues, and helps reduce inflammation, promote healing, and manage digestive disorders and skin ailments.

Acacia arabica

Gum Arabic Tree

Active Ingredients

25% Tannins

Part Used: Bark

Ratio: 12:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

Babool Bark (*Acacia arabica*) is widely used in traditional Ayurvedic medicine for its various health benefits. It is known for its astringent, antimicrobial, and anti-inflammatory effects, making it useful in treating skin ailments, wounds, and infections. The bark is also utilized to manage digestive issues like diarrhea and dysentery due to its ability to reduce intestinal inflammation. Additionally, Babool Bark is used to strengthen gums, treat oral infections, and alleviate toothaches. It is also beneficial for managing conditions like diabetes, respiratory disorders, and promoting overall health by supporting the immune system.

Form: Powder*
