Medicinal Uses

Bael is an Ayurvedic herbal medicine with manifold medicinal and pharmacological properties. Well known for its gastrointestinal action and antimicrobial effect, Bael is used for diarrhea, dysentery, and indigestion. Pulp, rich in tannins and mucilage, protects the gastrointestinal tract, decreases the inflammatory process, and hardens the stomach. Normalizing bowel movements and relieving constipation, Bael regulates digestion at its best. While helping to regulate blood sugar levels, its anti-diabetic properties, liver protection, and immune system boosting contribute to one's general well-being. Moreover, antioxidant properties of Bael fight against oxidative stress, further increasing its therapeutic value.
