

Product Details

Banafsha Leaves

It is a perennial herbaceous plant that belongs to the Violaceae family. The plant typically grows in temperate regions and thrives in moist, shaded areas such as forests, grasslands, and gardens. Banafsha has heart-shaped leaves with a velvety texture, and its striking, fragrant flowers bloom in shades of purple, blue, or white, making it easily recognizable. The leaves are dark green, and they have a soft, aromatic scent when crushed. The plant reaches a height of 10-30 cm and produces a rosette of leaves from which the flowers emerge in spring.

Viola odorata

Sweet Violet

Active Ingredients

-

Part Used: Leaves

Ratio: 07:01 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

The leaves of Viola odorata, or Banafsha, are cherished in traditional herbal medicine for their wide range of therapeutic properties. Rich in antioxidants, flavonoids, and essential oils, they offer anti-inflammatory, analgesic, and antimicrobial benefits. Banafsha leaves are commonly used to ease respiratory ailments like coughs, colds, and bronchitis by soothing the throat and helping clear mucus. The plant also has calming effects, helping to alleviate stress and anxiety. Additionally, Banafsha leaves are prized for their skin-healing properties and are often used in skincare to treat conditions such as acne and eczema. They are typically consumed as an infusion or applied topically in various herbal remedies.
