

Product Details

Indrayan Mool

It is a herbaceous plant belonging to the Cucurbitaceae family. It is widely distributed in dry and arid regions, particularly in India, Africa, and the Middle East. The plant features a sprawling, trailing vine with deeply lobed leaves. It produces small, yellow flowers and a spherical fruit resembling a miniature watermelon. The fruit of Indrayan Mool is often green when unripe, but it turns yellow as it matures. The plant thrives in hot, dry climates and is typically found in sandy soils.

Citrullus colocynthis

Colocynth

Active Ingredients

-

Part Used: Root

Ratio: 07:01 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

LET'S TALK

Medicinal Uses

Indrayan Mool (*Citrullus colocynthis*) has long been valued for its potent medicinal properties. The root of the plant is the key therapeutic part, known for its natural purgative, anti-inflammatory, and analgesic effects. It is often used to treat digestive disorders, such as constipation and indigestion, due to its strong laxative properties. Indrayan Mool is also utilized in Ayurvedic medicine to support liver health and detoxification processes. The plant is believed to have anti-cancer properties, and it is sometimes used in the treatment of malaria and fever. Additionally, the root is used for its antimicrobial and analgesic benefits in treating joint pain and arthritis. However, due to its potency, it should be used with caution and under expert supervision.

Form: Powder*

* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
