

Product Details

Lahsun

Lehsun, *Allium sativum*, or Garlic, is a bulbous plant native to Central Asia. Known for its strong aroma and distinct flavor, it is used in cooking and traditional medicine. Garlic is valued for its antibacterial, antiviral, and antifungal properties, boosting immunity and fighting infections. It also supports heart health by reducing cholesterol and blood pressure, with anti-inflammatory and antioxidant effects that promote overall well-being.

Allium sativum

Garlic

Active Ingredients

1.5% Ellin

Part Used: Rhizome

Ratio: 05:01 (Dry Extract)

Medicinal Uses

Lehsun (*Allium sativum*), commonly known as garlic, is a highly regarded herb in both culinary and medicinal practices. It is known for its powerful antimicrobial, anti-inflammatory, and antioxidant properties. Lehsun is widely used to boost the immune system, improve cardiovascular health by lowering cholesterol and blood pressure, and reduce the risk of heart disease. It also aids digestion, acts as a natural detoxifier, and helps in managing conditions like diabetes, respiratory infections, and arthritis. Additionally, garlic is known for its ability to fight infections, support liver health, and promote overall well-being.
