

Product Details

Lavanga, Laung

Syzygium aromaticum, commonly known as clove, is a tropical evergreen tree belonging to the Myrtaceae family. It grows up to 10-12 meters in height and is native to the Maluku Islands of Indonesia. The tree has broad, leathery, aromatic leaves and produces clusters of crimson flowers. The aromatic flower buds are harvested just before they open and then sun-dried to form the well-known spice. These dried buds have a strong, pungent aroma and a warm, sweet flavor. Clove trees thrive in tropical climates with rich, well-drained soils.

Syzygium aromaticum

Clove

Active Ingredients

-

Part Used: Fruit

Ratio: 4:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

Clove has been widely used in traditional medicine for its powerful therapeutic properties. Rich in eugenol, it acts as a natural antiseptic, analgesic, and anti-inflammatory agent. It is commonly used to relieve toothache and gum pain, often found in herbal dental care products. Clove also supports digestive health by reducing bloating, gas, and nausea. Its antimicrobial properties help combat infections, while its antioxidant content boosts immune defense. In addition, clove is used in Ayurvedic and Unani medicine to treat respiratory issues like coughs, colds, and asthma, and may also help in managing blood sugar levels when used appropriately.

Form: Powder*

* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
