

## Product Details

### Makoi Dana, Kakmachi

It is a small, herbaceous plant belonging to the Solanaceae family. It typically grows up to 30-120 cm in height and thrives in moist, fertile soil across tropical and subtropical regions. The plant has soft, ovate leaves with wavy or slightly toothed edges. Its small, white or pale violet star-shaped flowers bloom in clusters, followed by round berries that turn from green to glossy black when ripe. The seeds found in these ripe black berries are known as Makoi Dana. Though the plant resembles some toxic nightshade species.

### Solanum nigrum

Black Nightshade, European Black Nightshade, Blackberry Nightshade

#### Active Ingredients

-

#### Part Used: Whole plant

Ratio: 07:01 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

#### Medicinal Uses

Makoi Dana (Solanum nigrum seeds) possesses a variety of medicinal properties, making it valuable in Ayurvedic and traditional healing systems. The seeds and the whole plant are known for their hepatoprotective, anti-inflammatory, and antioxidant effects. They are commonly used in formulations that support liver health, aid in detoxification, and relieve conditions like jaundice, hepatitis, and skin disorders. Makoi is also beneficial in managing digestive issues, reducing pain and inflammation in conditions like rheumatism, and promoting overall immunity. Its natural cooling effect makes it helpful in reducing body heat and soothing urinary tract infections.

Form: Powder\*

\* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
