

Product Details

Revand chini

Rheum emodi, popularly known as Revand chini or Himalayan Rhubarb, is a robust perennial herb native to the high-altitude regions of the Himalayas, including parts of India, Nepal, and Tibet. It flourishes at elevations ranging from 2,400 to 4,000 meters and is recognized for its thick, reddish stems, large heart-shaped leaves, and clusters of small greenish-white to pink flowers. The plants underground rhizome is its most valuable part, rich in bioactive compounds like anthraquinones and tannins.

Rheum emodi

Himalayan Rhubarb

Active Ingredients

10% Tannins

Part Used: Root

Ratio: 5:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

Revand chini is highly regarded in Ayurvedic, Unani, and Tibetan medicine for its powerful digestive and detoxifying properties. Its root extract acts as a natural laxative, helping to relieve constipation, bloating, and sluggish digestion. It also supports liver health and aids in cleansing the system. With proven antimicrobial and antioxidant activity, it is beneficial in managing skin conditions and boosting overall wellness. Additionally, it has been traditionally used for easing joint pain, reducing fever, and supporting menstrual health when used in appropriate doses.

Form: Powder*

* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
