

Product Details

Shudh Shilajit (Dry)

Asphaltum punjabianum, commonly known as Shilajit, is a sticky tar-like substance found primarily in the mountainous regions of the Himalayas. Formed over centuries from decomposed plant material under high pressure and temperature, Shilajit is rich in organic compounds and minerals making it a potent supplement in traditional Ayurvedic medicine known for its rejuvenating properties often referred to as "the destroyer of weakness."

Asphaltum punjabianum

Asphalt, Bitumen

Active Ingredients

40% Fulvic Acid

Part Used: Mineral

Ratio: 04:01 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

Shilajit is a mineral pitch that has been used in Ayurveda for many centuries due to its potent rejuvenating action. It is a natural product which embraces a broad spectrum of therapeutic effects, such as energy gain, physical stamina, and reducing fatigue. Shilajit is also very important in male reproductive health because it increases fertility and sexual drive. The adaptogenic action of Shilajit helps the organism combat stress and enhance its immune system. Moreover, it promotes cognitive function: memory, focus, and clarity of mind. Shilajit enhances liver and kidney functions, thus facilitating the natural detoxification processes within the organism. Its anti-aging action contributes to overall vitality and longevity, which makes it a valuable remedy in Ayurveda.
