

Product Details

Varun Chhal

It is a deciduous tree native to the Indian subcontinent. It belongs to the family Capparaceae and is typically found growing along riverbanks, in moist regions, and on the edges of forests. The tree can reach a height of 10-15 meters and has a spreading crown. The leaves are large, ovate, and deeply lobed, while the tree produces small, white to pale yellow flowers in clusters. The fruit of Varun Chhal is a large, round capsule that contains numerous seeds.

Crataeva nurvala

Three Leaved Caper

Active Ingredients

-

Part Used: Bark

Ratio: 08:01 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

Varun Chhal (Crataeva nurvala) is highly esteemed in Ayurvedic medicine for its numerous therapeutic properties. The bark of the tree is particularly known for its diuretic, anti-inflammatory, and antimicrobial effects. It is widely used to treat urinary tract infections, kidney stones, and other kidney-related ailments by promoting the elimination of toxins and supporting overall kidney function. Varun Chhal is also beneficial in managing conditions like dysuria (painful urination), gout, and arthritis due to its ability to reduce inflammation and pain. Additionally, it has been used in traditional medicine to support digestion and improve liver health. The bark is often included in herbal formulations to strengthen the urinary system and detoxify the body.

Form: Powder*

* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
