

Product Details

Rohitaki, Pithraj

It is a medium to large evergreen tree belonging to the Meliaceae family. It is commonly found in the forests of India and Southeast Asia. The tree is characterized by its dense foliage, pinnate leaves, and reddish-brown bark, which is the most valued part for medicinal use. Its small, fragrant flowers bloom in clusters, followed by fruit capsules containing winged seeds. Rohitaki has been traditionally recognized in Ayurveda for its therapeutic properties and is regarded as a tree of high medicinal importance.

LET'S TALK

Medicinal Uses

The bark of Rohitaki is widely used in Ayurvedic medicine for its potent healing qualities. It is considered beneficial in liver disorders, spleen enlargement, and digestive ailments. Its bitter and astringent nature helps improve appetite, stimulate digestion, and support detoxification. Rohitaki bark is also known for its effectiveness in managing anemia, hemorrhoids, and menstrual imbalances. With anti-inflammatory, hepatoprotective, and blood-purifying actions, it plays a significant role in promoting overall health and restoring balance to the body.
