Medicinal Uses

Ashoka (Saraca asoca) has been a sacred plant and drug in Ayurvedic medicine, especially in all female reproductive complaints. Some of the active components exhibit an influence on controlling abnormal menstrual cycles, dysmenorrhea, and heavy menstrual discharges. Being a general uterine tonic, it treats the endometrium of the uterus and normalizes hormones, hence it has proven results in menopausal manifestations, too. Its astringent properties support the general health of the reproductive system. The use of Ashoka regularly improves fertility and keeps the menstrual cycle regulated, hence a very useful herb for females of any age group.
