

Product Details

Bharangi Mool

Bharangi Mool (*Clerodendrum serratum*), also known as the Blue Flowered Glory Tree, is a perennial shrub from the Lamiaceae family. It usually grows 1-2 meters tall and thrives in moist, hilly regions of India. The plant has serrated green leaves and bears clusters of attractive bluish-purple flowers that make it stand out in nature. Its roots, referred to as Mool, hold great importance in Ayurveda, where the plant has long been valued for its therapeutic and healing properties.

Clerodendrum indicum

Blue Flowered Glory Tree

Active Ingredients

Part Used: Root

Ratio: 10:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

In Ayurveda, Bharangi Mool is highly regarded for supporting respiratory and immune health. Its roots are used to relieve cough, cold, asthma, and bronchitis by reducing congestion and making breathing easier. Known for its anti-inflammatory, pain-relieving, and fever-reducing effects, it is also beneficial for conditions like joint pain, swelling, and fever. Additionally, it helps improve digestion, supports liver function, and promotes detoxification. Regular use in traditional formulations strengthens natural immunity and offers holistic support for overall well-being.

Form: Powder*

* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
