

## Product Details

### Bhumi Amla, Bhui Amla

*Phyllanthus fraternus* is a herbaceous plant native to tropical regions, particularly in India. It is known for its medicinal properties, especially in traditional Ayurvedic medicine. The plant is characterized by its small green leaves and flowers. It has been traditionally used to support liver health and manage urinary disorders.

### *Phyllanthus niruri*

Stonebreaker

#### Active Ingredients

1% Bitters

Part Used: Whole plant

Ratio: 8:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

#### Medicinal Uses

Bhumi Amla is a versatile herb traditionally used in medicine. Renowned for its hepatoprotective properties, it effectively detoxifies the liver and reduces inflammation within the organ. This makes it a valuable remedy for diseases such as jaundice, hepatitis, and gallbladder stones. Besides the liver, Bhumi Amla has other medicinal benefits. It aids in digestion, manages viral infection, and promotes kidney health by helping to eliminate kidney stones and urinary tract infections. Its antioxidant properties fight against oxidative stress and hence are useful in the formulation for skin disorders and diabetes management.

Form: Powder\*

\* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
