

## Product Details

### Chitrak Mool

*Plumbago indica*, commonly known as Chitrak Mool, is a perennial shrub native to Southeast Asia and the Indian subcontinent. It thrives in tropical and subtropical climates, growing up to 1-2 meters in height. The plant features slender, reddish stems, ovate green leaves, and clusters of striking red to pink flowers, making it an attractive ornamental plant as well. Its roots, which are thick and woody, Chitrak Mool is typically found in forested regions and cultivated for both therapeutic and horticultural purposes.

### *Plumbago indica*

Indian Leadwort

#### Active Ingredients

0.5% Alkaloids

#### Part Used: Root

Ratio: 10:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

#### Medicinal Uses

Chitrak Mool is highly regarded in Ayurveda for its digestive, carminative, and metabolism-boosting properties. The root contains plumbagin, a bioactive compound known for its anti-inflammatory, antimicrobial, and antioxidant effects. It is widely used to stimulate digestion, improve appetite, and support liver function. Additionally, Chitrak Mool is believed to enhance blood circulation, aid in weight management, and relieve joint pain. Its antibacterial and antifungal properties make it beneficial for skin disorders. However, due to its potent nature, it should be used under expert supervision to avoid potential side effects.

Form: Powder\*

\* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
