

Product Details

Kulinjan

It is a perennial herbaceous plant belonging to the ginger family (Zingiberaceae). Native to Southeast Asia and widely cultivated in tropical regions, it grows up to 2 meters in height. The plant features long, lance-shaped, glossy green leaves and produces beautiful, pale-yellow flowers with dark-red veins. Its rhizome, which is the primary source of its medicinal and culinary value, is aromatic, reddish-brown on the outside, and pale inside with a strong, spicy flavor. Kulinjan thrives in warm, humid conditions and is often grown in well-drained, fertile soil.

Alpinia galanga Greater Galangal

Active Ingredients

Part Used: Root

Ratio: 10:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

Kulinjan is highly valued in Ayurveda for its anti-inflammatory, antimicrobial, and digestive properties. It is widely used to relieve respiratory disorders, such as asthma, bronchitis, and cough, by clearing mucus and promoting easier breathing. Additionally, its potent digestive benefits help improve appetite, reduce bloating, and alleviate indigestion. Kulinjan is also known to boost immunity, enhance circulation, and relieve joint pain due to its antioxidant and anti-inflammatory effects. Furthermore, it acts as a natural tonic to support overall vitality and is used in various Ayurvedic formulations for its therapeutic potential.
