

Product Details

Nirgundi, Sambhalu

It commonly grows near riverbanks, in open fields, and along roadsides throughout India. The plant is recognized for its compound leaves with five pointed leaflets, dark green on top and silvery underneath. It bears clusters of small bluish-purple flowers and emits a strong, distinctive aroma that naturally repels insects. Adaptable and drought-tolerant, Nirgundi thrives even in poor soil, making it an ideal plant for sustainable cultivation.

Vitex negundo

Five Leaved Chaste Tree

Active Ingredients

2% Bitters, 1% Alkaloids

Part Used: Whole plant

Ratio: 8:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

The leaves of Nirgundi are widely used in Ayurveda for their powerful healing properties. Known for their anti-inflammatory, pain-relieving, and antioxidant effects, they are commonly used to ease joint pain, arthritis, and muscle aches. Often applied as pastes or in medicated oils. Nirgundi leaves are also beneficial in managing respiratory problems like asthma and bronchitis, thanks to their natural ability to clear airways and reduce inflammation. In addition, they support faster wound healing, reduce swelling, and help relieve headaches and menstrual pain. Their antimicrobial qualities also make them effective in treating skin conditions and promoting clear, healthy skin.

Form: Powder*

* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
