

Product Details

Jaiphal

Jaiphal, scientifically known as *Myristica fragrans*, is an evergreen tree belonging to the Myristicaceae family. Native to the Maluku Islands of Indonesia, it is now cultivated in tropical regions of India and other countries. The tree produces aromatic fruits that contain two valuable spices: the seed (nutmeg) and the dried seed covering (mace). The seeds are brownish, oval, and highly fragrant, commonly used in culinary, medicinal, and aromatic applications. Jaiphal thrives in warm, humid climates with well-drained, fertile soils.

Nutmeg

Active Ingredients

-

Part Used: Fruit

Ratio: 7:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

Jaiphal is highly valued in Ayurveda for its digestive, carminative, and stimulant properties. It is traditionally used to improve appetite, relieve indigestion, and reduce flatulence. The seeds also exhibit anti-inflammatory, antioxidant, and antimicrobial effects, supporting overall immunity and wellness. Jaiphal is beneficial for respiratory health, helping to manage cough and cold, and is used in formulations for nervous system support, pain relief, and boosting vitality. Its aromatic and therapeutic qualities make it a versatile ingredient in herbal medicine and wellness preparations.

Form: Powder*

* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
