

Product Details

Kababchini, Shitalchini

Kababchini, also known as Shitalchini, is a perennial climbing vine belonging to the Piperaceae family. Native to Indonesia and cultivated in parts of India, the plant has slender, woody stems, heart-shaped leaves, and spikes of small flowers that develop into round, dark brown to black berries. The dried berries, commonly referred to as Kababchini, are aromatic and pungent, and are primarily used in traditional medicine and spice preparations. The plant thrives in tropical climates with well-drained soil and partial shade.

Piper cubeba

Cubebs, Tailed Pepper

Active Ingredients

-

Part Used: Seeds

Ratio: 6:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

LET'S TALK

Medicinal Uses

Kababchini is highly valued in Ayurveda for its digestive, carminative, and antimicrobial properties. It is traditionally used to relieve indigestion, bloating, and flatulence, while also stimulating appetite. The berries support urinary and reproductive health and are beneficial for respiratory conditions such as cough and cold. Rich in essential oils and bioactive compounds, Kababchini helps boost immunity, regulate metabolism, and enhance overall vitality. Its warming and pungent nature makes it effective in balancing Kapha and Vata doshas in the body.
