

## Product Details

### Kachnar

Kachnar is a small deciduous tree or shrub belonging to the Fabaceae family. It is commonly found in India, especially in tropical and subtropical regions. The plant has distinctive bilobed leaves, slender branches, and produces attractive yellow bell-shaped flowers with a dark maroon center. These flowers later develop into elongated seed pods. Kachnar thrives in well-drained soils under full sunlight and is valued both for its ornamental beauty and therapeutic properties.

### Bauhinia variegata

Mountain Ebony

#### Active Ingredients

20% Tannins

#### Part Used: Bark

Ratio: 10:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

#### Medicinal Uses

Kachnar is traditionally used in Ayurveda for its astringent, anti-inflammatory, and digestive-supporting properties. The bark and flower buds help manage thyroid disorders, diarrhea, skin diseases, and bleeding conditions. The plant also exhibits antimicrobial, antioxidant, and wound-healing effects, supporting immunity and overall wellness. Rich in flavonoids and bioactive compounds, Kachnar is used in herbal formulations for digestive health, hormonal balance, and skin care. Its therapeutic properties make it a valuable herb in maintaining general health and vitality.

Form: Powder\*

\* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
