

Product Details

Kalihari

Kalihari, scientifically known as *Gloriosa superba*, is a perennial climbing herb belonging to the Colchicaceae family. Native to tropical and subtropical regions of India and Africa, it grows from underground tubers and produces twining stems, glossy lance-shaped leaves, and striking red to yellow flowers. The tubers are the most valued part of the plant and are extensively used in traditional Ayurvedic medicine. Kalihari thrives in well-drained soils with moderate sunlight and is known for its ornamental as well as therapeutic properties.

Active Ingredients

-

Part Used: Seeds

Ratio: 9:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

Kalihari is highly regarded in Ayurveda for its anti-inflammatory, analgesic, and purgative properties. The tubers are traditionally used to manage joint pain, gout, and muscular disorders, as well as to support digestive health. They also exhibit antimicrobial, diuretic, and blood-purifying effects. Rich in bioactive alkaloids such as colchicine, Kalihari is used in formulations for enhancing immunity, promoting detoxification, and maintaining overall vitality. Due to its potent nature, it must be used carefully under proper guidance.

Form: Powder*

* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
