

Product Details

Khurasani Ajwain

It is an annual or biennial herb belonging to the Solanaceae family. Commonly known as Henbane, it is found in temperate regions and is cultivated in parts of India for medicinal use. The plant has soft, hairy leaves, sticky glandular stems, and produces pale yellow flowers veined with purple. The seeds are small, brownish, and highly aromatic. In Ayurveda and Unani systems, the seeds and leaves are valued for their potent medicinal properties. The plant thrives in dry, well-drained soils under sunny conditions.

Hyoscyamus niger

Henbane

Active Ingredients

0.5 Alkaloids

Part Used: Seeds

Ratio: 12:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

Medicinal Uses

Khurasani Ajwain is traditionally used for its analgesic, antispasmodic, and sedative properties. The seeds help relieve toothache, muscle spasms, abdominal pain, and respiratory discomfort. It also exhibits anti-inflammatory, antitussive, and calming effects, supporting sleep and relaxation. Due to its strong bioactive alkaloids, it is used in controlled quantities in herbal formulations for pain relief, respiratory health, and nerve-related conditions. Khurasani Ajwain must be used cautiously and under guidance, as it is a potent herb with strong physiological effects.

Form: Powder*

* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
