

## Product Details

### Kuda Chaal, Kutaj

Kuda Chaal, commonly known as Kutaj, is derived from *Holarrhena antidysenterica*, a small to medium-sized deciduous tree belonging to the Apocynaceae family. It is native to India and commonly found in dry, deciduous forests and scrublands. The tree has a straight trunk, rough grey bark, simple opposite leaves, and produces small, fragrant white flowers. The bark, seeds, and roots are primarily used in Ayurvedic medicine. Kuda Chhal thrives in well-drained soils under sunny conditions and is highly valued for its medicinal properties.

### *Holarrhena antidysenterica*

Ester tree, Conessi bark

#### Active Ingredients

3% Alkaloids

#### Part Used: Bark

Ratio: 8:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

#### Medicinal Uses

Kuda Chaal is traditionally used in Ayurveda for its astringent, antidiarrheal, and antimicrobial properties. It is highly effective in managing digestive disorders such as diarrhea, dysentery, and intestinal infections. The bark also supports liver function, aids in detoxification, and helps reduce inflammation. Rich in bioactive alkaloids, Kuda Chhal strengthens immunity, promotes overall digestive health, and enhances general vitality and wellness. Its potent therapeutic effects make it a key ingredient in traditional formulations for gastrointestinal health.

Form: Powder\*

\* Soft/Paste form also available

Size: 1kg, 5kg, 25kg

Packaging Type: HDPE Drum

Country of Origin: India
