

## Product Details

### Palash Pushp

It is a medium to large deciduous tree belonging to the Fabaceae family. Native to India, it is commonly found in dry forests, riverbanks, and along roadsides. The tree has a straight trunk, pinnate leaves, and produces striking bright orange-red flowers in clusters, known for their vibrant color and cultural significance. The flowers, along with seeds, leaves, and bark, are used in traditional medicine. It thrives in well-drained soils with full sunlight and is highly valued for both its ornamental beauty and therapeutic properties.

### Butea monosperma

Bastard peak

#### Active Ingredients

-

#### Part Used: Flower

Ratio: 10:1 (Dry Extract)

Purity: 100%

Shelf Life: 36 Months

#### Medicinal Uses

Palash Pushp is traditionally used in Ayurveda for its astringent, anti-inflammatory, and blood-purifying properties. The flowers help manage digestive disorders, promote liver health, and support detoxification. They also exhibit antimicrobial, antioxidant, and anti-inflammatory effects, enhancing immunity and overall wellness. Rich in bioactive compounds such as flavonoids and tannins, Palash Pushp is used in formulations for gastrointestinal health, skin care, and general vitality. Its therapeutic and rejuvenating properties make it a valuable ingredient in herbal preparations.

Form: Powder\*

\* Soft/Paste form also available
