Medicinal Uses

Adhatoda vasica is highly valued in Ayurveda for its expectorant, bronchodilator, and anti-inflammatory properties. The active compound vasicine helps break up mucus in the respiratory tract, reduces inflammation, and facilitates easier breathing. It is effective in managing asthma, bronchitis, chronic cough, tuberculosis, and sinusitis, and is commonly administered in the form of syrups and decoctions. Adhatoda vasica also supports overall lung health through its potent antibacterial and anti-inflammatory action, making it a cornerstone herb in both traditional and modern respiratory medicine.
