

Product Information

Amba Chaal

Amba Chaal is a large evergreen tree of the Anacardiaceae family, native to the Indian subcontinent and cultivated in tropical and subtropical regions. The tree has a dense canopy with dark green, leathery leaves and produces small fragrant flowers in panicles, followed by fleshy, aromatic fruits. Leaves, bark, seeds, and fruit are used in traditional medicine. *Mangifera indica* thrives in warm climates and well-drained soils.

Mangifera indica

Mango Bark

Active Ingredients

Dry Powder Extract

Active: -
Ratio: 7:1

Soft Paste Extract

Active: -
Ratio: 5:1

Part Used: Bark

Medicinal Uses

Mangifera indica is traditionally used in Ayurveda for its astringent, anti-inflammatory, and antimicrobial properties. It is beneficial in managing diarrhea, dysentery, bleeding disorders, and excessive menstrual flow. The bark also supports oral health and is used in gargles for gum infections and sore throat. Rich in tannins, flavonoids, and polyphenols, Amba Chhal helps promote digestive health, wound healing, and overall immunity, making it a valuable ingredient in classical herbal formulations.

Purity: 100%
