

Product Information

Aritha

Aritha is a deciduous tree native to the Indian subcontinent and Southeast Asia, with trifoliate leaves, small yellow flowers, and saponin-rich fruits giving them natural soap-like properties. Used in Ayurvedic medicine for centuries for its purifying and detoxifying qualities, Aritha promotes healthy hair growth, reduces dandruff, and enhances scalp health. It is also known for its antimicrobial and anti-inflammatory properties.

Sapindus trifoliatus

South Indian Soapnut

Active Ingredients

Dry Powder Extract

Active: -

Ratio: 5:1

Soft Paste Extract

Active: -

Ratio: 3:1

Part Used: Seeds

Medicinal Uses

Sapindus trifoliatus is a traditional Ayurvedic herb prized for its natural cleansing and healing properties. Rich in saponins, it produces a natural lather and is widely used as a gentle cleanser for hair and skin. Medicinally, Aritha is used to treat dandruff, scalp infections, excessive oiliness, and various skin conditions like eczema and acne. Its therapeutic benefits include acting as a natural antimicrobial, anti-inflammatory, and antioxidant agent, promoting healthy, lustrous hair, soothing irritated skin, and offering a chemical-free alternative to synthetic cleansers for overall skin and scalp health.
