

Product Information

Brahmi, Mandukaparni

Brahmi, Mandukaparni is a small, creeping perennial native to tropical and subtropical regions, thriving in moist, swampy environments. It has slender green stems, small kidney-shaped leaves with slightly serrated edges, and tiny pinkish-purple to white flowers near leaf nodes. Known for enhancing cognitive function, it is also valued for skin repair and wound healing. Centella asiatica is used in Ayurveda, Traditional Chinese Medicine.

Centella asiatica

Indian Pennywort, Gotu Kola

Active Ingredients

Dry Powder Extract

Active: 25% Bacoside
Ratio: 8:1

Soft Paste Extract

Active: 15% Bacoside
Ratio: 5:1

Part Used: Whole plant

Medicinal Uses

Centella asiatica is renowned for its powerful medicinal properties, particularly in promoting brain function and mental well-being. It is traditionally used to enhance memory, improve concentration, and support cognitive function. The herb is also known for its adaptogenic effects, helping to reduce stress and anxiety while promoting a sense of calm. Additionally, Centella asiatica supports nervous system health, aids in mental clarity, and has been studied for its potential to protect against age-related cognitive decline. Beyond its neurological benefits, this herb is valued for its wound-healing properties, skin-rejuvenating effects, and ability to support blood circulation. Rich in antioxidants and anti-inflammatory compounds.
