

## Product Information

### Daruhaldi

Daruhaldi is a deciduous shrub native to the Himalayan region characterized by spiny branches and small yellow flowers followed by bright red berries. Renowned for its medicinal properties in traditional Ayurvedic medicine for centuries especially valued for its bioactive compounds including berberine known for its wide range of therapeutic effects.

### Berberis aristata

Indian Barberry

#### Active Ingredients

##### Dry Powder Extract

Active: 5% Berberine  
Ratio: 12:1

##### Soft Paste Extract

Active: 3% Berberine  
Ratio: 10:1

Part Used: Root

#### Medicinal Uses

Berberis aristata is a general-purpose medicinal plant with various therapeutic uses. It contains berberine, a compound useful in a number of ways. The anti-inflammatory and antimicrobial actions of the herb promote the health of the liver by facilitating detoxification and secretion of bile. Topically, Daruhaldi is used to treat skin disorders such as acne, eczema, and wounds. It also aids digestion through the elimination of constipation and the control of infection. It is studied for its potential to regulate blood sugar levels, hence acting as a benefactor in diabetes management. The antioxidant property of Daruhaldi neutralizes harmful free radicals, adding to overall well-being.
