

## Product Information

### Devdar

Devdar is a majestic evergreen tree of the Pinaceae family, native to the Himalayas in India, Pakistan, and Afghanistan. It grows up to 40 meters with a broad, conical crown, long needle-like leaves in dense clusters, and grayish-brown bark that becomes fissured with age. It produces small, cylindrical cones that mature into woody fruits. Cedrus deodara thrives in cool, high-altitude regions and is iconic in Himalayan forests.

### Cedrus deodara

Deodar Cedar, Himalayan Cedar

#### Active Ingredients

##### Dry Powder Extract

Active: -  
Ratio: 8:1

##### Soft Paste Extract

Active: -  
Ratio: 5:1

Part Used: Root

#### Medicinal Uses

It is highly valued in Ayurveda for its therapeutic properties. The bark, wood, and other parts of the tree are used in various remedies due to their anti-inflammatory, antimicrobial, and analgesic effects. Devdar is often used to treat conditions like arthritis, muscle pain, and inflammation. It is known for its calming and soothing properties, making it useful for stress relief, anxiety, and promoting sleep. The tree is also believed to have detoxifying effects, supporting the removal of toxins from the body. Additionally, Devdar is used in skin care for its antiseptic properties, helping to heal wounds, cuts, and skin infections. The tree is considered sacred and is often used in rituals, believed to have purifying and protective qualities.

Purity: 100%
