

Product Information

Durva

Durva is a perennial grass of the Poaceae family, widely distributed throughout India and tropical regions, growing in lawns, fields, and along riverbanks. It has slender, creeping stems, narrow green leaves, and small spike-like flowers. The whole plant is used in traditional Ayurvedic medicine. Cynodon dactylon thrives in a variety of soil types and climates and is valued for its hardiness and medicinal properties.

Cynodon dactylon

Bermuda Grass, Couch Grass

Active Ingredients

Dry Powder Extract

Active: -
Ratio: 12:1

Soft Paste Extract

Active: -
Ratio: 10:1

Part Used: Whole plant

Medicinal Uses

Cynodon dactylon is traditionally used in Ayurveda for its hemostatic, diuretic, and anti-inflammatory properties. The plant helps control bleeding, manage urinary disorders, and reduce inflammation. It also exhibits antioxidant, antimicrobial, and wound-healing effects, supporting overall wellness and vitality. Rich in flavonoids, glycosides, and minerals, Durva aids kidney function, cardiovascular health, and detoxification. Its therapeutic properties make it a valuable ingredient in herbal formulations for bleeding disorders, urinary health, and general wellness.
