

Product Information

Erand Mool

Erand Mool refers to the root of the castor plant of the Euphorbiaceae family, a fast-growing perennial shrub widely cultivated across India with large, lobed, palmate leaves and spiny seed capsules. While the seeds are known for producing castor oil, the root also holds significant value in Ayurveda. The roots are harvested, cleaned, and dried for use in various traditional formulations.

Ricinus communis

Castor

Active Ingredients

Dry Powder Extract

Active: 0.5% Alkaloids
Ratio: 14:1

Soft Paste Extract

Active: 0.3% Alkaloids
Ratio: 11:1

Part Used: Root

Medicinal Uses

Ricinus communis is traditionally used in Ayurveda for its anti-inflammatory, analgesic, and Vata-balancing properties. It is commonly used to support joint and muscle health, helping to relieve pain, stiffness, and inflammation in conditions such as arthritis, sciatica, and backache. The root also aids digestion, promotes detoxification, and supports the healthy elimination of waste from the body. Additionally, Erand Mool is used to improve respiratory function, support women's reproductive health, and enhance overall physical wellness.

Purity: 100%
Shelf Life: 36 Months
Size: 1kg, 5kg, 25kg
Country of Origin: India
